Senior Skip Day

On May 11, 1973, the seniors ventured to Dr. MainPrize Park north of Torquay, Canada. There we picnicked, and played softball in the afternoon. In the evening, we went to the Golden Wheel in Plentywood for supper. After that, we went to the show and then we all went to the bowling alley.

How will YOU help?

Now it's time to apply your education to blend your new ideas and enthusiasm with others' experience to help solve problems. Because, your ability to solve problems in your job, in society, and in your home will be the measure of your success. Some of you may wind up helping us solve problems. Like meeting energy demands that double every 10 years, reclaiming coal fields to a natural balance, snuffing out smokestacks and tapping new sources of natural gas that are becoming more difficult to find. We're doing our best, but we're always looking for a better way. You may just help us find it.

Thank You!

Now will probably be my only chance to thank all the wonderful people that helped me to make the annual what it is. My parents, especially, understood just how much time it takes to put an annual together. Once in awhile they gave me a rough time about all the time I spent after school working on it, but they were really good sports about it. To Mr. Anderson, thank you for all the time you spent when I needed you most. To my best friend Penny, who spent almost as much time as I did working on the annual, I can't express all my thanks and appreciation. To Wayne and Paul, the photographers, thank you for taking enough good pictures so we had something to work with. To Carol, Diane, Joyce, and Kathy, thank you for all the hard work you put in trying to sell all the ads you did. I would also like to thank all the other people who helped with the annual with either their thoughts and ideas, or actually came in the commerce room and worked. While I am thanking people, I would like to thank all the people who helped me with my schooling, that includes all my teachers, friends, and relatives.

Bonnie
